The Christian importer used to send out \$50,000,000 to Germany and Cuba every year for white sugar. Now what do you think this rascally McKinley bill has done? Why, it lets common black sugar come in free and pays a bounty of 2 cents per pound for home made Nebraska white sugar. And what is the result? Why these rascal Nebraskaites, backed by the wicked farmers, have shipped expensive machinery from Germany.

You hear me?" KANSAS SUGAR IN 1890.

Prof. E. B. Cowgill, the well known Kansas sugar man, or one who is authority on sugar making in Kansas as well as elsewhere, arrived yesterday morning and will be detained in the city a day or two looking after business matters. Concerning the sugar making business he stated last evening that this year's experience was most gratifying. It was considered and estimated one year ago that the manufacture of sugar from cane and beets raised in Kansas had passed beyond the experimental stage, and this year only confirms that opinion The companies in the state going at the business in a business-like manper in every respect are getting along quite well and are making money.
